

Tallahassee Apple User Group, Officers Meeting
August 11, 2011

Present: Greg Colovos, Gabrielle, Gerald Grow (minutes), Dave Harvey, Bob O'Lary,
Val Poliuto, Mary Ventre,

Gabrielle called the meeting to order at 6:40 p.m.

New Business:

Greg is going to a TalTech meeting on disaster recovery and will see if a speaker from that meeting might speak on a program at T.Apple. Gabrielle thanked Greg for securing tonight's speaker and encouraged everyone to continue to find good speakers for the meetings.

Old Business:

Gabrielle did some research and confirmed that the official name should be Tallahassee Apple User Group – User has no s, and no apostrophe.

Gabrielle updated the name and the T.Apple logo on the Facebook page as well as the logo on the tapple.org website. She will work to update the name to User Group on the website soon.

Treasurer's report from Val: \$1890 balance. He reported 8 new members and 11 deleted members, with 99 remaining members. Val expressed concern about the membership numbers dropping. Gabrielle agreed but said that she hoped that having outside speakers and opening the Facebook group to the public would help draw new people to the meetings. Attendance for this meeting looked to be extremely high (later confirmed at 48).

Gabrielle re-signed the contract with Challenger Learning Center.

Greg: Met with Gary to recommend changes to bylaws. Gary has those changes and he was not able to attend tonight, due to a family emergency.

Meeting adjourned at 6:48 p.m.
